EXPLANATION

This leaflet is a revision of Fishery Leaflet 195, Partial List of Manufacturers of Fishing Gear and Accessories (September 1956). It is comprised of two lists, cross indexed one with the other. Each item in either list is preceded by a number -- the reference number for that specific item -- and is followed by one or more numbers -- reference numbers referring to the number preceding items in the other list, for example: Item 3, Apparatus made to order, in list I, Gear and Accessories, is followed by the numbers (49), (236), and (370). By referring to list II, Manufacturers: Company Names and Addresses, it can be found that apparatus is listed as made to order by: (49) Barnum Machine Works; (236) H-B Instrument Co.; and (370) Olympic Instrument Co.

Conversely, to find some of the products offered by a specific manufacturer, the reverse process is used: Item (49) in list II is the Barnum Machine Works. Following the address of that company is the figure (3). Turning to list I, it can be found that (3) refers to Apparatus made to order -- one of the manufacturing services offered by the company.

The listings are, of necessity, incomplete. Any manufacturer not represented in the leaflet may be included in subsequent revisions by submitting his company name and a listing of products offered to: Chief, Branch of Exploratory Fishing and Gear Research, Division of Industrial Research and Services, U. S. Bureau of Commercial Fisheries, Washington 25, D. C. Suppliers and dealers who are not also manufacturers cannot be included because of limitations of space. Additional listings may be found in industrial registers available at most large public libraries.
