A LIST OF THE CIRCULARS OF THE UNITED STATES FISH
AND WILDLIFE SERVICE

Compiled by Lola T. Dees
Branch of Reports
Division of Resource Development
Bureau of Commercial Fisheries

The Circulars are popular and semitechnical publications of general or regional interest; they are intended to aid conservation and management of fish and wildlife. The Circular series was begun in 1941, superseding Fishery Circulars of the Bureau of Fisheries and Wildlife Circulars of the Bureau of Biological Survey. Circulars are generally distributed to depository libraries. (Articles preceded by asterisks are out of print, but can be borrowed from some public and college libraries.)
