

Errata

Witherell, David, and Doug Woodby. 2005. Application of Marine Protected Areas for Sustainable Production and Marine Biodiversity off Alaska. *Marine Fisheries Review* 67(1):1-27.

On page 3, the paper noted that, in 1961, Japan established a no-trawl zone in Bristol Bay. This closure was actually first established in 1959.

On page 11, the western boundary of the Nearshore Bristol Bay Trawl Closure Area was identified as long. 163°W; the correct boundary is long. 162°W.

We thank Mr. Braxton Dew for noting these corrections. *D. Witherell and D. Woodby*
