book for World Fisheries Abstracts, 158 p. Published bimonthly in English, French, and Spanish. Annual subscription is \$4.00; single copy 75 cents; handbook supplied with subscription but single copies available at 75 cents; specify language edition desired. Food and Agriculture Organization of the United Nations, Washington, D. C., 1950. This publication contains abstracts of technical articles from periodicals and serial publications, published laboratory reports, Government bulletins, and other publications

containing information of importance to fisheries throughout the world. Printed in a form suitable for cutting and card-filing the individual abstracts. The cards can be filed according to one of the three filing systems for which they are coded--universal decimal classification system, U. S. Fish and Wildlife Service system, and subject heading system. Detailed descriptions of these classification systems and directions for filing of the abstracts are given in the Handbook.
