

Supplementary Table 1

Number of black sea bass (*Centropristis striata*) that were captured in 2016 (Fish16) and 2018 (Fish18) with rod-and-reel gear near Ocean City, Maryland, by habitat type, either artificial (A) or natural (N). Also provided are the locations and descriptions of the sites where specimens were collected. ND=no data.

Site	Location	Lat (°N)	Long (°W)	Type	Fish16	Fish18	Description of site
1	Pharoby North	38.55	74.90	A	25	ND	Scalloper boat, sunk in 1980, section 1 of 2
2	Pharoby South	38.54	74.90	A	45	ND	Scalloper boat, sunk in 1980, section 2 of 2
3	Kathleen Riggins main	38.54	74.98	A	30	ND	Clammer boat, sank in 1991
4	Kathleen Riggins debris	38.38	74.89	A	3	ND	Rubble field from shipwreck
5	Unknown wreck #1-16 (Palmer)	38.63	74.87	A	1	ND	Wooden schooner, wrecked in 1915
6	Unknown wreck #2-16 (Vandelay)	38.59	75.15	N	3	ND	Highly deteriorated wooden wreck of unknown origin
7	Natural bottom habitat 17-18-1	38.41	75.08	N	ND	102	Mostly shell and cobble covering mud and sand bottom
8	Natural bottom habitat 17-18-2	38.44	74.96	N	ND	108	Mostly shell and cobble atop mud and sand bottom
9	Jimmy Jackson	38.33	75.03	A	ND	2	Concrete and metal structures, constructed circa 2011

Site	Location	Lat (°N)	Long (°W)	Type	Fish16	Fish18	Description of site
10	Blenny	38.15	79.91	A	ND	24	Submarine, scuttled 1989. Mussel and gorgonian coral growth on site
11	Cable cars	38.54	74.99	A	ND	51	Staggered subway cars. Mussel growth on substrate
12	Navy barges	38.16	75.15	A	ND	13	Sunken cargo barges
