

## LIST OF ILLUSTRATIONS.

### PLATES.

BIRDS OF LAYSAN AND THE LEEWARD ISLANDS:	Facing page
Plate 1. <i>Procelsterna saxatilis</i> , Necker Island tern.....	769
2. (1) Sooty tern ( <i>Sterna fuliginosa</i> ) and nest. (2) Customary activity over a large colony of sooty terns. (3) Portion of a sooty tern colony. (4) Characteristic view in large colony of sooty terns. (5) Looking north over Laysan Island, showing west shore of lagoon. (6) Cove, Necker Island, showing highest peak, 300 feet.....	808
3. (7) Gray-backed tern ( <i>Sterna lunata</i> ) and young, showing nesting site. (8) Chick of <i>Sterna lunata</i> . (9) Hawaiian tern ( <i>Micranous hawaiiensis</i> ) on nest. (10) Hawaiian tern alighting on its nest. (11) Company of <i>Micranous hawaiiensis</i> resting on bushes near the shore. (12) Noddy tern ( <i>Anous stolidus</i> ) and nest.....	808
4. (13) White terns ( <i>Gygis alba kittlitzii</i> ) near the "nest." (14) Nest of noddy ( <i>Anous stolidus</i> ). (15) Characteristic "nest" of <i>Gygis</i> . (16) Another "nest" of <i>Gygis</i> . (17) Chick of <i>Gygis alba kittlitzii</i> about 3 days old. (18) The writer interviewing chief citizens of Laysan.....	808
5. (19) View of a large colony of Laysan albatrosses ( <i>Diomedea immutabilis</i> ), mostly young birds. (20) A corner in one of the colonies of <i>Diomedea immutabilis</i> . (21) Portrait of a young Laysan albatross. (22) <i>Diomedea immutabilis</i> feeding its young—first stage, the young asking for food. (23) Second stage in feeding young—old bird starting to disgorge. (24) Final stage in feeding young—arrival of breakfast.....	808
6. (25) <i>Diomedea immutabilis</i> ; first steps in favorite dance and "song." (26) Second step in the albatross dance. (27) Finale of dance—the duet. (28) A more common ending of dance—one "singing," the other snapping beak. (29) A pair of wedge-tailed shearwaters ( <i>Puffinus cuneatus</i> ). (30) Young of <i>Asterelasmus hypoleuca</i> .....	808
7. (31) Red-tailed tropic bird covering chick. (32) Red-tailed tropic bird ( <i>Phaethon rubricauda</i> ) on nest. (33) Pair of <i>Sula cyanops</i> guarding young. (34) Blue-faced booby ( <i>Sula cyanops</i> ) and young. (35) Blue-faced booby feeding young. (36) <i>Sula cyanops</i> guarding eggs.....	808
8. (37) Red-footed booby ( <i>Sula piscator</i> ) on nest. (38) Red-footed booby. (39) Male man-o'-war bird ( <i>Fregata aquila</i> ) with inflated gular pouch. (40) Man-o'-war birds; female in foreground, two males beyond, on nests. (41) Christmas Island shearwater ( <i>Puffinus nativitatis</i> ) on nest. (42) Bristle-thighed curlews ( <i>Numenius tahitiensis</i> ).....	808
9. (43) Miller bird ( <i>Acrocephalus familiaris</i> ) and nest. (44) Laysan rail ( <i>Porzana palmeri</i> ) on nest. (45) Laysan rail eating a tern's egg. (46) Eggs of Laysan rail. (47) Nest and eggs of the Laysan teal. (48) Newly hatched young of the Laysan teal.....	808
10. (49) Laysan finch ( <i>Teleptera cantans</i> ) and nest. (50) Laysan finch. (51) Nest of Laysan honey-eater ( <i>Himatione freethi</i> ). (52) Nest of Laysan rail in grass tussock, viewed from above.....	808
<b>NOTES ON A PORPOISE FROM THE HAWAIIAN ISLANDS:</b>	
Plate 1. Porpoise, <i>Prodelphinus attenuatus</i> .....	811
2. (1-4) Views of two skulls of <i>Prodelphinus attenuatus</i> .....	816
<b>BRACHYURA AND MACRURA OF THE HAWAIIAN ISLANDS:</b>	
Plate I. Native Hawaiian boy catching crabs.....	829
II. The shrimper, Hilo.....	882
III. <i>Etisus splendidus</i> .....	980
IV. <i>Charybdis erythroductyla</i> .....	980
V. <i>Panulirus japonicus</i> .....	980
VI. <i>Cyrtomaia smithi</i> .....	980
VII. (1) <i>Sarmatium faxoni</i> . (2) <i>Ocypode laevis</i> . (3) <i>Pilumnoplax cooki</i> . (4) <i>Pallius oahuensis</i> . (5) <i>Pallius fisheri</i> . (6) <i>Manella spinipes</i> .....	980
VIII. (1) <i>Grapsus strigosus longitarsis</i> . (2) <i>Lophozozymus dodone</i> . (2a) <i>Lophozozymus dodone</i> . (3) <i>Carpilodes virgatus</i> . (4) <i>Carpilodes coccineus</i> . (5) <i>Carpilodes supernodosus</i> . (6) <i>Xantholacunosus</i> . (7) <i>Pachygrapsus longipes</i> . (8) <i>Lophozozymus intonsus</i> . (9) <i>Leptodius waialuanus</i> . (10) <i>Xanthodius biunguis</i> .....	980
IX. (1) <i>Leptodius molokaiensis</i> . (2) <i>Leptodius gracilis</i> . (3) <i>Leptodius nudipes</i> . (4) <i>Actæa nodulosa</i> . (5) <i>Medæus ornatulus</i> . (6) <i>Cycloxanthops angustus</i> . (7) <i>Etisodes electra</i> . (8) <i>Actæa garretti</i> . (9) <i>Actæa hawaiiensis</i> . (10) <i>Medæus simplex</i> . (11) <i>Xanthias flavescens</i> . (12) <i>Xanthias canaliculatus</i> . (13) <i>Micropanope sexlobata</i> . (14) <i>Xanthias minutus</i> . (15) <i>Banarella villosa</i> .....	980
X. <i>Etisus splendidus</i> .....	980

BRACHYURA AND MACRURA OF THE HAWAIIAN ISLANDS—Continued.		Facing page
Plate XI. (1) <i>Pseudozotus inornatus</i> . (2) <i>Actumnus obesus</i> . (3) <i>Pilumnus tæniola</i> . (4) <i>Menippe convexa</i> . (5) <i>Grapsillus rufopunctatus</i> . (6) <i>Grapsillus cymodoce</i> . (7) <i>Platyzotus lævis</i> . (8) <i>Pilumnus nuttingi</i> .		980
XII. (1) <i>Thalamita auauensis</i> . (2) <i>Portunus (Achelous) granulatus</i> . (3) <i>Parathranites hexagonum</i> . (4) <i>Portunus (Achelous) orbicularis</i> . (5) <i>Portunus (Xiphonectes) macrophthalmus</i> . (6) <i>Portunus (Xiphonectes) longispinosus</i> . (7) <i>Lupoicyclus quinqueidentatus</i> . (8) <i>Phymodius laysani</i> . (9) <i>Goniocaphyra inaequalis</i> .		980
XIII. (1) <i>Charybdis orientalis</i> . (2) <i>Charybdis japonica</i> .		980
XIV. (1) <i>Portunus pubescens</i> . (2) <i>Kraussia hendersoni</i> . (3) <i>Kraussia integra</i> . (4) <i>Parthenope (Platylambrus) nummifera</i> . (5) <i>Daldorfia horrida</i> . (6) <i>Sphenocarcinus carbunculus</i> . (7) <i>Chlorinoides goldsboroughi</i> . (8) <i>Harrovia truncata</i> .		980
XV. (1) <i>Parthenope (Platylambrus) stellata</i> . (2) <i>Parthenope (Platylambrus) stellata</i> . (3) <i>Ebalia jordani</i> . (4) <i>Ethusa mascarone hawaiiensis</i> . (5) <i>Parthenope (Aulacolambrus) whitei</i> . (6) <i>Parthenope (Parthenolambrus) calappoides</i> . (7) <i>Parthenope (Platylambrus) stellata lacunosa</i> . (8) <i>Parthenope (Platylambrus) echinata</i> .		980
XVI. (1) <i>Mursia spinimanus</i> . (2) <i>Randallia distincta</i> . (3) <i>Randallia distincta</i> . (4) <i>Randallia gilberti</i> . (5) <i>Tlos angulatus</i> .		980
XVII. (1) <i>Parthenope (Rhinolambrus) lamelligera</i> . (2) <i>Enoplometopus occidentalis</i> .		980
XVIII. (1) <i>Serystes robustus</i> . (2) <i>Scyllarus martensi</i> . (3) <i>Mursia hawaiiensis</i> . (4) <i>Mursia hawaiiensis</i> . (5) <i>Parribacis papyraceus</i> .		980
XIX. (1) <i>Aristeus semidentatus</i> . (2) <i>Penæus marginatus</i> . (3) <i>Benthescycymus lacinia</i> .		980
XX. (1) <i>Metapenæus evermanni</i> . (2) <i>Metapenæus richtersi</i> . (3) <i>Metapenæus mogiensis</i> . (4) <i>Haliporus modestus</i> . (5) <i>Metapenæus velutinus</i> . (6) <i>Sicyonia longicauda</i> . (7) <i>Sicyonia lævis</i> . (8) <i>Oplophorus foliaceus</i> . (9) <i>Solenocera lucasii</i> .		980
XXI. (1) <i>Pandalus ocellus</i> . (2) <i>Pandalus exiguus</i> . (3) <i>Pandalus brevis</i> . (4) <i>Pandalus sindol</i> . (5) <i>Pandalus spinidorsalis</i> . (6) <i>Heterocarpus signatus</i> . (7) <i>Heterocarpus ensifer</i> .		980
XXII. (1) <i>Palæmon debilis</i> . (2) <i>Palæmonella laccadivensis</i> . (3) <i>Palæmon pacificus</i> . (4) <i>Palæmon pandaloides</i> . (5) <i>Bithynis grandimanus</i> . (6) <i>Processa processa</i> .		980
XXIII. (1) <i>Stylodactylus discissipes</i> . (2) <i>Pasiphæa flagellata</i> . (3) <i>Egeon orientalis</i> . (4) <i>Pasiphæa kalwiensis</i> . (5) <i>Pasiphæa truncata</i> . (6) <i>Nematocarcinus tenuirostris</i> .		980
XXIV. (1) <i>Corallicaris quadridentata</i> . (2) <i>Corallicaris truncata</i> . (3) <i>Hippolyte acuta</i> . (4) <i>Hippolysmata paucidens</i> . (5) <i>Spirontocaris kauaiensis</i> . (6) <i>Hippolysmata acicula</i> . (7) <i>Periclimenes pusillus</i> . (8) <i>Spongiocla henshawi</i> . (9) <i>Polycheles snyderi</i> . (10) <i>Spirontocaris profunda</i> . (11) <i>Polycheles asper</i> . (12) <i>Harpilius depressus</i> .		980
HYDROIDS COLLECTED AT THE HAWAIIAN ISLANDS:		
Plate I. <i>Hydrodendrium gorgonoides</i> .		960
II. (1) <i>Corydendrium minor</i> . (2) <i>Corydendrium corrugatum</i> . (3) <i>Balea mirabilis</i> . (4) <i>Campanularia eloisa</i> . (5) <i>Halecium scandens</i> . (6) <i>Campanularia eloisa</i> .		960
III. (1) <i>Stegopoma gilberti</i> . (2) <i>Stegopoma gracilis</i> . (3) <i>Stegopoma plumicola</i> . (4) ? <i>Cryptolaria operculata</i> . (5) ? <i>Opercularella longicauda</i> . (6) <i>Lafoea contorta</i> .		960
IV. (1) <i>Lictorella cervicornis</i> . (2) <i>Cryptolaria symmetrica</i> . (3) <i>Sertularia crenulata</i> . (4) <i>Sertularia torreyi</i> . (5) <i>Sertularia snyderi</i> . (6) <i>Diphasia palmata</i> .		960
V. (1) <i>Plumularia milleri</i> . (2) <i>Plumularia delicata</i> . (3) <i>Monostæchas fisheri</i> . (4) <i>Antennella complexa</i> . (5) <i>Theocarpus niger</i> . (6) <i>Lytocarpus hawaiiensis</i> .		960
VI. (1) <i>Lytocarpus balei</i> . (2) <i>Halicornaria flava</i> . (3) <i>Lytocarpus similis</i> . (4) <i>Halicornaria bryani</i> . (5) <i>Plumularia jordani</i> .		960
VII. (1, 2) <i>Hydrodendrium gorgonoides</i> . (3, 4) <i>Balea mirabilis</i> . (5-7) <i>Corydendrium corrugatum</i> . (8, 9) <i>Corydendrium minor</i> .		960
VIII. (1-3) <i>Halecium scandens</i> . (4-7) <i>Campanularia eloisa</i> . (8, 9) <i>Stegopoma gracilis</i> .		960
IX. (1) <i>Stegopoma gilberti</i> . (2, 3) <i>Stegopoma plumicola</i> . (4-7) <i>Opercularella longicauda</i> . (8, 9) <i>Lafoea contorta</i> .		960
X. (1-4) <i>Lictorella halecioides</i> . (5-9) <i>Lictorella cervicornis</i> . (10 and 11) <i>Cryptolaria symmetrica</i> . (12-14) <i>Cryptolaria operculata</i> . (15) <i>Sertularia snyderi</i> .		960
XI. (1) <i>Sertularia dentifera</i> . (2, 3) <i>Sertularia torreyi</i> . (4-7) <i>Sertularia crenulata</i> . (8-10) <i>Diphasia palmata</i> .		960
XII. (1, 2) <i>Plumularia jordani</i> . (3-5) <i>Plumularia delicata</i> . (6, 7) <i>Plumularia milleri</i> . (8) <i>Monostæchas fisheri</i> . (9) <i>Antennella complexa</i> . (10-13) <i>Lytocarpus hawaiiensis</i> .		960
XIII. (1-6) <i>Theocarpus niger</i> . (7, 8) <i>Lytocarpus balei</i> . (9, 10) <i>Lytocarpus similis</i> . (11, 12) <i>Halicornaria flava</i> . (13, 14) <i>Halicornaria bryani</i> .		960
NEMERTEANS COLLECTED AT THE HAWAIIAN ISLANDS:		
Plate I. (1-3) <i>Tæniosoma univittatum</i> . (4-6) <i>Tæniosoma cingulatum</i> .		986
STARFISHES OF THE HAWAIIAN ISLANDS:		
Plate I. (1) <i>Astropecten polyacanthus</i> . (2) <i>Astropecten velitaris</i> . (3) <i>Astropecten pusillus</i> . (4, 5) <i>Astropecten ctenophorus</i> .		1180
II. (1) <i>Astropecten polyacanthus</i> . (2) <i>Astropecten velitaris</i> . (3) <i>Astropecten ctenophorus</i> . (4) <i>Astropecten pusillus</i> . (5) <i>Astropecten productus</i> .		1180
III. (1) <i>Ctenophoraster hawaiiensis</i> . (2) <i>Psilasteropsis cingulata</i> . (3) <i>Psilaster attenuatus</i> .		1180
IV. (1-3) <i>Astropecten productus</i> .		1180

## LIST OF ILLUSTRATIONS.

IX

## STARFISHES OF THE HAWAIIAN ISLANDS—Continued.

Facing page

Plate v. (1, 2) <i>Ctenophoraster hawaiiensis</i> .....	1130
VI. (1, 2) <i>Ctenophoraster hawaiiensis</i> .....	1130
VII. (1-3) <i>Psilasteropsis cingulata</i> . (4) <i>Psilaster attenuatus</i> .....	1130
VIII. (1) <i>Psilaster attenuatus</i> . (2) <i>Psilasteropsis cingulata</i> . (3) <i>Astropecten callistus</i> . (4) <i>Tritonaster craspedotus</i> .....	1130
IX. (1) <i>Tritonaster craspedotus</i> . (2) <i>Patagiaster nuttingi</i> . (3) <i>Dipsacaster neslotes</i> . (4) <i>Astropecten callistus</i> .....	1130
X. (1) <i>Psilasteropsis cingulata</i> . (2) <i>Dipsacaster neslotes</i> . (3) <i>Cheiraster snyderi</i> . (4) <i>Cheiraster inops</i> . (5) <i>Cheiraster horridus</i> . (6) <i>Pseudarchaster myobranchius</i> . (7) <i>Pseudarchaster jordani</i> .....	1130
XI. (1) <i>Tritonaster craspedotus</i> . (2) <i>Astropecten callistus</i> .....	1130
XII. (1, 2) <i>Dipsacaster neslotes</i> . (3) <i>Patagiaster nuttingi</i> .....	1130
XIII. (1, 2) <i>Luidia hystrix</i> .....	1130
XIV. (1, 2) <i>Luidia hystrix</i> .....	1130
XV. (1-3) <i>Luidia magnifica</i> .....	1130
XVI. (1) <i>Luidia magnifica</i> . (2) <i>Luidia hystrix</i> . (3) <i>Mediaster ornatus</i> . (4) <i>Nereidaster bowersi</i> . (5) <i>Pentagonaster ammophilus</i> . (6) <i>Tosia (Plinthaster) ceramoidea</i> .....	1130
XVII. (1) <i>Patagiaster nuttingi</i> . (2) <i>Cheiraster inops</i> . (3) <i>Cheiraster horridus</i> . (4) <i>Nereidaster bowersi</i> .....	1130
XVIII. (1) <i>Cheiraster snyderi</i> . (2) <i>Cheiraster horridus</i> . (3) <i>Cheiraster snyderi</i> .....	1130
XIX. (1) <i>Pseudarchaster myobranchius</i> . (2) <i>Pseudarchaster jordani</i> . (3) <i>Goniodiscides sebæ</i> .....	1130
XX. (1, 2) <i>Mediaster ornatus</i> . (3) <i>Antheniaster epixanthus</i> .....	1130
XXI. (1) <i>Nereidaster bowersi</i> . (2) <i>Tosia (Ceramaster) micropelta</i> .....	1130
XXII. (1, 2) <i>Pentagonaster ammophilus</i> . (3, 4) <i>Tosia (Plinthaster) ceramoidea</i> .....	1130
XXIII. (1-3) <i>Astroceramus callimorphus</i> .....	1130
XXIV. (1, 2) <i>Calliderma spectabilis</i> . (3) <i>Zoroaster spinulosus</i> .....	1130
XXV. (1-3) <i>Calliderma spectabilis</i> .....	1130
XXVI. (1) <i>Antheniaster epixanthus</i> . (2) <i>Asterodiscus tuberculosus</i> . (3) <i>Calliderma spectabilis</i> . (4) <i>Tosia (Ceramaster) micropelta</i> . (5) <i>Evoplosoma forcipifera</i> .....	1130
XXVII. (1) <i>Calliaster pedicellaris</i> . (2) <i>Gilbertaster anacanthus</i> . (3) <i>Astroceramus callimorphus</i> . (4) <i>Evoplosoma forcipifera</i> .....	1130
XXVIII. (1, 2) <i>Calliaster pedicellaris</i> . (3) <i>Asterodiscus tuberculosus</i> .....	1130
XXIX. (1, 2) <i>Antheniaster epixanthus</i> . (3) <i>Evoplosoma forcipifera</i> . (4) <i>Linckia diplax</i> .....	1130
XXX. (1) <i>Leiaster callipeplus</i> . (2) <i>Ophidiaster rhabdotus</i> . (3) <i>Ophidiaster triseriatus</i> . (4) <i>Ophidiaster sclerodermus</i> .....	1130
XXXI. (1) <i>Calliaster pedicellaris</i> . (2) <i>Ophidiaster sclerodermus</i> . (3) <i>Leiaster callipeplus</i> . (4) <i>Ophidiaster loroli</i> . (5) <i>Ophidiaster tenellus</i> . (6) <i>Ophidiaster squameus</i> . (7) <i>Ophidiaster triseriatus</i> . (8) <i>Ophidiaster rhabdotus</i> . (9) <i>Linckia diplax</i> .....	1130
XXXII. (1-3) <i>Pentaceros hawaiiensis</i> . (4, 5) <i>Asterodiscus tuberculosus</i> .....	1130
XXXIII. (1) <i>Pentaceros hawaiiensis</i> . (2) <i>Asterodiscus tuberculosus</i> .....	1130
XXXIV. (1, 2) <i>Asterodiscus tuberculosus</i> . (3) <i>Pentaceros hawaiiensis</i> .....	1130
XXXV. (1, 2) <i>Henricia robusta</i> . (3, 4) <i>Henricia pauperrima</i> .....	1130
XXXVI. (1, 2) <i>Mithrodia bradleyi</i> .....	1130
XXXVII. (1) <i>Mithrodia bradleyi</i> . (2, 3) <i>Mithrodia</i> . (4) <i>Ophidiaster squameus</i> .....	1130
XXXVIII. (1) <i>Anseropoda insignis</i> . (2) <i>Henricia robusta</i> . (3) <i>Henricia pauperrima</i> . (4) <i>Valvaster striatus</i> . (5) <i>Pteraster reticulatus</i> . (6) <i>Hymenaster pentagonalis</i> . (7) <i>Benthaster eritimus</i> .....	1130
XXXIX. (1, 2) <i>Pteraster reticulatus</i> . (3) <i>Ophidiaster loroli</i> .....	1130
XL. (1) <i>Benthaster eritimus</i> . (2) <i>Hymenaster pentagonalis</i> . (3) <i>Asthenactis papyraceus</i> .....	1130
XLI. (1) <i>Hymenaster pentagonalis</i> . (2) <i>Zoroaster spinulosus</i> . (3) <i>Hydrasterias verrilli</i> . (4) <i>Coscinasterias (Distolasterias) euplecta</i> .....	1130
XLII. (1-4) <i>Coscinasterias (Distolasterias) euplecta</i> . (5, 6) <i>Zoroaster spinulosus</i> .....	1130
XLIII. (1) <i>Odinia pacifica</i> . (2) <i>Brisinga evermanni</i> . (3) <i>Brisinga panopla</i> .....	1130
XLIV. (1) <i>Brisinga panopla</i> .....	1130
XLV. (1, 2) <i>Brisinga alberti</i> . (3) <i>Brisinga panopla</i> . (4) <i>Brisinga evermanni</i> .....	1130
XLVI. (1) <i>Brisinga fragilis</i> . (2, 3) <i>Brisinga alberti</i> .....	1130
XLVII. (1) <i>Odinia pacifica</i> . (2) <i>Brisinga panopla</i> . (3) <i>Brisinga evermanni</i> . (4) <i>Brisinga alberti</i> .....	1130
XLVIII. (1) <i>Brisinga alberti</i> . (2) <i>Brisinga evermanni</i> . (3) <i>Brisinga fragilis</i> .....	1130
XLIX. (1) <i>Antheniaster epixanthus</i> . (2, 3) <i>Psilaster attenuatus</i> .....	1130
MEDUSÆ COLLECTED AT THE HAWAIIAN ISLANDS:	
Plate I. (1) <i>Charybdea rastonii</i> . (2) <i>Charybdea moseri</i> .....	1144
II. (3, 4) <i>Pelagia panopyra</i> . (5, 6) <i>Periphylla dodecabostrycha</i> . (7) <i>Atolla alexandri</i> .....	1144
III. (8, 9) <i>Solmaris insculpta</i> . (10, 11) <i>Atolla alexandri</i> . (12) <i>Hormiphora fusiformis</i> .....	1144

## TEXT FIGURES.

BIRDS OF LAYSAN AND THE LEEWARD ISLANDS:	Page.	BRACHYURA AND MATRURA OF THE HAWAIIAN ISLANDS—Continued.	Page.
Necker Island from the south.....	770	<i>Polycheles granulatus</i> .....	899
North side of Necker Island.....	771	<i>Penæus marginatus</i> .....	902
Bird Island from the northwest.....	772	<i>Metapenæus velutinus</i> .....	903
South slope of Bird Island.....	773	<i>Metapenæus richtersi</i> .....	904
Diagram of flight of albatrosses.....	791	<i>Metapenæus evermanni</i> .....	904
<b>ISOPODS COLLECTED AT THE HAWAIIAN ISLANDS:</b>		<i>Benthesicymus laciniatus</i> .....	906
<i>Æga quadratasinus</i> .....	820	<i>Gennadas parvus</i> .....	907
<i>Rocinela hawaiiensis</i> .....	821	<i>Gennadas propinquus</i> .....	907
Young male of <i>Cymothoa recta</i> .....	822	<i>Gennadas sp.</i> .....	907
<i>Zonophryxus retrodens</i> .....	823	<i>Pontophilus modumanuensis</i> .....	910
<i>Zonophryxus retrodens</i> , male.....	824	<i>Rhynchocinetes rugulosus</i> .....	911
<i>Entophilus omnitectus</i> .....	825	<i>Pandalus brevis</i> .....	916
<i>Entophilus omnitectus</i> , male.....	826	<i>Pandalus exiguus</i> .....	916
<b>BRACHYURA AND MACRURA OF THE HAWAIIAN ISLANDS:</b>		<i>Caridina brevirostris</i> .....	919
<i>Palaicus fisheri</i> .....	836	<i>Harpillius depressus</i> .....	920
<i>Palaicus oahuensis</i> .....	836	<i>Corallilocaris quadridentata</i> .....	920
<i>Manella spinipes</i> .....	837	<i>Corallilocaris truncata</i> .....	921
