L. J. Ronsivalli

Departments

- 25 NOAA/NMFS Developments
- 35 Foreign Fishery Developments
- 40 In Brief. . . .

Cover: The *Gina Karen*, a San Diego-based seiner, is at about half-net, about 10 minutes before backdown. The seine skiff is functioning as a tug pulling the vessel out of the net. Net configuration here is excellent, with only mildly developed stem and bow bends. The porpoise can be seen rafted together. See the article on porpoise rescue methods beginning on page 1.
