

Supplementary Table 1. Scale distance measurements for the Atlantic menhadan and Gulf menhadan subsamples by method to each annulus. Focus to annulus is defined as follows: F_1 is focus to first annulus, F_2 is focus to second annulus, F_3 is focus to third annulus, and F_4 is focus to fourth annulus. Repeated measures ANOVA test results for comparisons across methods by region and annulus measurement.

Region	Method	Focus to annulus	Mean	n	Min	Max	Std Dev	df	F-value	P-value
Atlantic	Microscope	F_1	2.58	136	1.35	3.82	0.54	405	2.899	0.056
Atlantic	Eberbach	F_1	2.67	136	1.43	3.90	0.54			
Atlantic	Blue card	F_1	2.74	136	1.53	3.98	0.55			
Atlantic	Microscope	F_2	3.81	86	2.54	4.73	0.40	255	8.822	<0.001
Atlantic	Eberbach	F_2	3.98	86	2.98	4.88	0.39			
Atlantic	Blue card	F_2	4.07	86	3.13	4.98	0.40
